

6180 SCIP database and reporting duties

*The introduction of the SCIP database, **Substances of Concern In articles as such or in complex objects (Products)**, is supposed to support the implementation of the EU Action Plan for the Circular Economy.*

Based on the Waste Framework Directive 2008/98/EC, the SCIP database has been developed by ECHA. Since January 5, 2021, companies placing articles containing substances on the Candidate List (SVHC - Substances of Very High Concern) on the EU market will be required to submit information on these articles to ECHA.

We provide you with comprehensive information on the legal requirements and laws that govern your reporting obligations to ECHA, so that you can avoid sanctions for non-compliance.

Objective

You have gained an overview of the SCIP database requirements. You know the milestones of the SCIP implementation and can make your own time planning of the data preparation.

You have learned who is affected by the notification requirements to ECHA. You know SCIP notification procedures and options for data submission.

You understand the required terms and the meaning of mandatory and optional fields in SCIP dossiers and are prepared for the preparation of the SCIP notification.

Content:

- EU Action Plan (2015), SCIP goals and the timeline
- Relevant legal regulations
- National implementation of the WFD
- Who is obliged to notify?
- Risks and Liability
- Main SCIP definitions
- SCIP: notification process
- Submission options
- SCIP dossier: information requirements, mandatory & optional fields
- SCIP database: protecting confidential information
- Preparing for the notification duty
- SCIP database: work breakdown
- Interfaces to other systems

Teaching method

Lecture with demonstration and discussion

Circle of participants

You want to learn about your obligations when notifying articles containing SVHC to the SCIP database.

Personal requirements

Knowledge of REACH; e.g. our courses 6150 or 6151

Duration

120 minutes

Max. number of participants: 14

Handout

You will receive a personal copy of the in-class presentation.

Further training courses

Current prices and dates can be found on our website www.imds-professional.com.

Exclusive training

You can also book this training exclusively. Your advantage: You determine the date, and we adapt the content to your wishes and requirements.

Please request your personal offer:
