

6116 Automate MDS updates

This extension in IMDS allows companies with one click to identify MDS updates when received MDS are already accepted in the inbox.

It lists updated supplier MDSs as well as the individual own or published MDSs that contain an older version of the updated MDS.

Objective

You know the functions of the IMDS to automatically update material data sheets using the system. You are able to check your MDS for up-to-dateness and can send them to your customers updated in the IMDS. You know the change management specifications in the IMDS, can implement them in your company and are aware of current update requirements..

Content

- MDS Change Management according to Rec001
- Overview of update requirements
 - Rec.019, SCIP in IMDS and others
- MDS update function at a glance
 - Updating of own MDS
 - Updating of published MDS
 - Updating of received MDS
- MDS release in the MDS update function
 - Removing selected MDS
- Summary, answering questions
