

## 615r REACH for downstream users in the manufacturing industry

### Objective

The participants know the background and objectives of the REACH and WFD regulations and can assess which operational areas are affected. They know when a restriction of use and an authorization obligation for substances apply, or when a SCIP notification should be carried out. The participants know the information obligations towards their customers and suppliers. They know what action they can take if they do not receive information from their suppliers and how they can incorporate the topic of REACH into their business practice in order to meet the legal requirements. They are also aware of the consequences of the BREXIT for REACH.

### Training content

- ☐ Basics of the REACH regulation
  - REACH: Background and objective
  - Definition: Substance, mixture, and article
  - Demarcation of article – Substance/Mixture in unclear cases
  - Actors under REACH
