

615r REACH for downstream users in the manufacturing industry

Objective

The participants know the background and objectives of the REACH and WFD regulations and can assess which operational areas are affected. They know when a restriction of use and an authorization obligation for substances apply, or when a SCIP notification should be carried out. The participants know the information obligations towards their customers and suppliers. They know what action they can take if they do not receive information from their suppliers and how they can incorporate the topic of REACH into their business practice in order to meet the legal requirements. They are also aware of the consequences of the BREXIT for REACH.

Training content

- Basics
 - Background and legal basis for REACH
 - Substances, mixtures, and articles
 - Manufacturers, importers, distributors and downstream users
- The REACH process
 - Registration
