Quick References

- How to create a component MDS
- How to create a material MDS

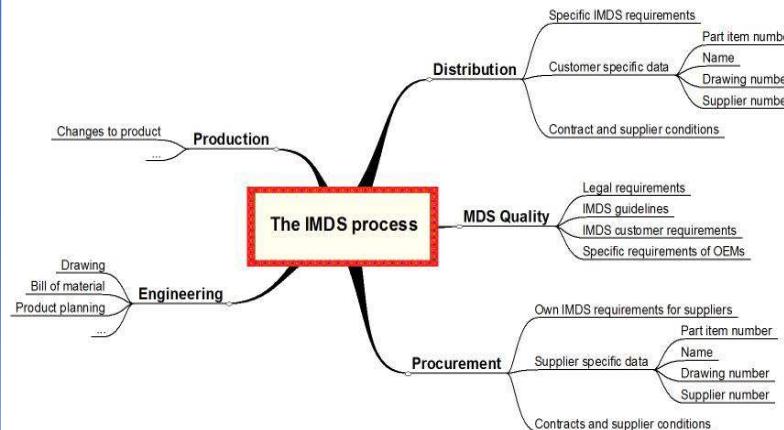

Why IMDS?

- A material data sheet (IMDS MDS) is part of the PPAP or PSW (VDA Band 2) process.
- IMDS is part of IATF 16949
- Adherence of general reporting rules from the OEM
- Adherence of IMDS-Change-Management rules from the OEM
- Directly concerned by: -REACH 1907/2006
- ELV 2000/53, -Biocide 528/2012
- Conflict Mineral Reporting, Dodd-Frank Act
- Part of the EU vehicle type approval

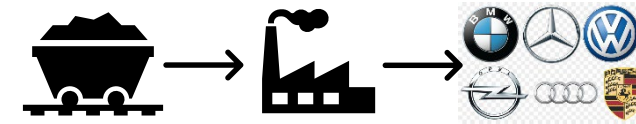

Creating a data sheet (MDS)

Adding references or nodes

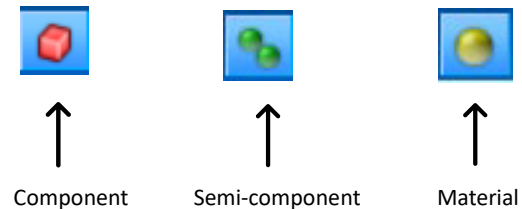

The three chapters of a material datasheet

Basic substances

- The basis of all materials
- Indicated in percentage
- Smallest unit which cannot be altered
- About 15,000 active basic substances

- Blue: Declarable basic substances (D)
- Red: Declarable/prohibited (D/P), prohibited (P)
- Underlined: REACH-relevant basic substances (SVHC)
