

## 6125 – New IMDS Release

**IMDS Release 14.3, scheduled for March 2024, provides new features. Get to know the new options and functions to use IMDS in a targeted and efficient manner in your company.**

### Objective

You will be familiar with all the new features and changes introduced by IMDS version 14.3, and with the changes related to bio-sourced materials. You will know about the additional fields displayed in PDF reports. You will be familiar with the new search possibilities within an MDS, analogous to the Where-Used Analysis function. You will be familiar with the display of material classifications. You will be able to define flame retardants and plasticizers in polymer materials, as well as understand the process of updating referenced MDS when copying. You will be familiar with changes in MDS verification, and you will be able to assess the impact of version changes on your day-to-day work and apply new features with confidence.

### Content

#### IMDS Release 14.3
