

## 6181 SCIP and IUCLID in practice: Implementing SVHC reporting obligations

*To support the implementation of the EU Circular Economy Action Plan, the SCIP database was introduced by the ECHA to align with the obligations set out in the [Waste Framework Directive 2008/98/EC](#). SCIP stands for **S**ubstances of **C**oncern **I**n articles as such or in complex objects (**P**roducts).*

*Since January 5 2021, companies that place articles containing SVHCs (**S**ubstances of **V**ery **H**igh **C**oncern), which are on the [Reach Candidate List](#), on the EU market have been obliged to submit information on these articles to the ECHA in the form of an SCIP dossier.*

### Objectives

To become familiar with the SCIP notification procedure and the ECHA IT tool IUCLID, and to be able to work offline, online, or in your own IT systems using the IUCLID format. You will learn how to access ECHA services and tools. You will also become familiar with data submission options and be able to plan your own dossier preparation schedule. You will learn about the information requirements for SCIP dossiers and be able to complete mandatory and optional fields with confidence. You will gain an overview of the IUCLID functionalities and be able to reliably create and submit your SCIP dossiers to the ECHA.

### Content:

- ☐ SCIP database: Notification procedure
- ☐ Company registration process
  - Data submission options
- ☐ Supplier management
  - Linking of supplier and product data under one 'SCIP Number'
- ☐ Cloud service and submission portal
  - IUCLID and package of reference substances of the Candidate List
- ☐ SCIP database: Dashboard and structuring information
- ☐ Examples of SCIP dossiers, referencing, grouping
  - Create and export dossiers
  - Article data records: Articles and complex objects
  - SCIP-internal information transfer
  - Update SCIP notifications
  - Submit SCIP notifications (SCIP dossier)
- ☐ Where to find the data for the SCIP submission
- ☐ Summary and questions

### Teaching method

Lecture with demonstration, exercises, and discussion

### Participants

This course is ideal for anyone who prepares SCIP dossiers manually and wants to fulfil ECHA notification obligations. This includes (future) materials compliance officers and coordinators, employees working in areas such as product development, the environment, sustainability, quality management, etc.

### Participation requirements

Participation in our course 6180 "SVHCs and the SCIP database: recognizing and understanding reporting obligations" or comparable previous knowledge.

### Duration

240 minutes (plus breaks)

**Max. number of participants:** 14

### Handout

You will receive a personal copy of the in-class presentation.

### Further training courses

Current prices and dates can be found on our website [www.imds-professional.com](http://www.imds-professional.com).

### Exclusive training

You can also book this training to be delivered exclusively to you and your team. Benefits: You determine the date, and we adapt the content to suit your preferences and requirements.
