

6183 Creating SCIP dossiers in the IMDS

Since the introduction of IMDS Release 13, all IMDS users can transfer MDSs (for products defined by REACH which contain SVHC substances in a concentration above 0.1%) to the SCIP database free of charge using the S2S (system-to-system) interface. To use this application in practice, the respective company must first register with the ECHA and the S2S key must be available and stored in the IMDS. The "SCIP transmissions" can then be used in the IMDS. The SCIP application has been developed to include various attributes and the Where-Used List in the IMDS has also been adapted for this purpose. This makes it possible to identify your own SCIP-relevant MDS (products).

Learning objectives

You will gain an overview of the SCIP reporting obligations and you will know the requirements in the IMDS to use the "SCIP transmissions" function safely. You will also learn how to integrate the existing S2S key into your IMDS account and understand the various SCIP attributes in the IMDS. You will be able to analyse the affected material data sheets (MDS) in the IMDS using the Where-Used List and independently transmit these MDSs to the SCIP database via the IMDS interface.

Course content

- ☐ Who is obligated to carry out SCIP reporting?
- ☐ Inclusion of the S2S key in the IMDS
- ☐ Overview of the SCIP attributes in the IMDS
- ☐ Where-Used List — which MDS (products) are affected in my account?
- ☐ Transmission of affected MDS to the SCIP database
- ☐ Transmission report from the ECHA

Webinar format

Lecture with demonstrations, questions and answers

Participants

Organisations that want to transfer IMDS entries to the SCIP database when reporting articles containing SVHC.

Participation requirements

Basic knowledge of IMDS (6120) and SCIP and their reporting obligations in the EU (6180).

Technical prerequisites

SCIP registration, available S2S key, PC with Internet access (details can be found on our web page).

Duration

120 minutes

Max. number of participants: 14

Further training courses

Current prices and dates can be found on our website www.imds-professional.com

Exclusive training courses

You can also book this training to be delivered exclusively to you and your team.

Benefits: You determine the date, and we adapt the content to suit your preferences and requirements.
