

6172 IMDS – Requirements and guidelines

Objectives

Legal directives, regulations, and IMDS-based rules make materials compliance a complex and challenging task for any business. Upon completion of this seminar, you have a good understanding of the requirements and know how to meet them. In particular, you understand the contents of guideline 001 “General Structure”. This enables you to apply its rules to ensure you can create material data sheets in the IMDS without any errors. In addition, you have a good understanding of the other guidelines published by the IMDS Steering Committee. You are able to interpret these guidelines correctly and integrate them efficiently into your IMDS process. This will ensure that you can avoid unnecessary additional expenses caused by having to make corrections. You are able to fully support a well-functioning customer and supplier relationship and avoid having any material data sheets rejected.

Content

- ☐ Relevant legal requirements
 - End-of-life Vehicles Directive 2000/53/EC, including Annex II
 - ELV-R 2023/0284 (Draft of the new regulation)
 - REACH Regulation 1907/2006
 - Biocide Regulation EU 528/2012
- ☐ Application Codes in IMDS
 - Application-relevant basic substances in IMDS
 - Preselection of application codes in IMDS
 - Verifying and setting the correct application code
- ☐ Recommendation 001 “General Structure”
 - Compliance with the supplier chain in IMDS
 - Compliance with change management rules
 - Rules for the structure mix
 - Definition, rules and guidelines of “component”, “semi-component”, “material”, “basic substance”
 - Basic substance list (BSL), GADSL and SVHC in IMDS
- ☐ Overview of further Recommendations in IMDS
 - IMDS 002 to IMDS 027

The accuracy of material data in IMDS is an essential aspect for the fulfilment of legal requirements. This seminar shows you the correct way to create material data sheets in IMDS.

Teaching method

Lecture with demonstrations

Participants

IMDS users and personnel responsible for IMDS processes, quality management, design, materials laboratory, and environmental management

Prerequisites

Basic knowledge of the use of tIMDS.

Duration

360 minutes = 6 hours (plus breaks)

Max. number of participants: 14

Certificate

As a participant in our authorised IMDS trainings, you will receive a personal certificate with which you can prove your IMDS qualification.

Handout

You will receive a personal copy of the accompanying presentation.

Further training courses

Current prices and dates can be found on our website www.imds-professional.com.

Exclusive training

You can also book this training to be delivered exclusively to you and your team. Benefits: You determine the date, and we adapt the content to suit your preferences and requirements.
