5120 iPCA in Practice - Master the Basics

Objective

You are familiar with the basic functions and definitions required for getting started with iPCA, such as the application environment and login, window management, personal settings, and the functions of the main menu. You are proficient in the practical use of iPCA and can create, send and manage material data sheets (MDS), as well as create structure trees and check and edit them after an import. You understand how to use the checking functions to create high-quality MDSs. You are familiar with the search mechanisms for finding good-quality data sheets and know how to integrate these into your structure tree. You understand the change management requirements and can implement them with confidence. You can use SPM (supplier management) to make supply chain processes more efficient. You will receive an introduction to the iPCA receiving inspection and know its specific functions to manage it optimally.

Content

☐ First steps with iPCA
- Public pages, terms of use and data protection provisions
- Differences between the IMDS online and in-house applications
- Application environment and log-in
- Role concept in iPCA
- Window management and help (manuals, guidelines and history)
- Personal settings (search parameters and search results list)

☐ Overview of the main menu
- File and Edit
- Data (Import, Analysis)
- Options (Highlighting, Structure Tree and Parameters)
- Extra (Administration, CSI, DB, Event and Master)

☐ Working with iPCA
- General Searches and Tree Search
- Creating an MDS (Manually and via Import)
- Version Management, Copying, Deleting
- Special Processing Functions

☐ Working with SPM (Supplier Management)
- Introduction and Parameters
- Defining Search Methods in SPM
- Creating Orders
  Administration and Configuration of SPM

☐ Working with iPCA Processes
- Rules for Change Management
- MDS Actions (internal, send, propose, publish, forward)
- Outbox: Status of sent MDS
- Inbox: Status of received MDS

☐ Introduction to the iPCA Inbox Check
- General Check
- Recommendation Check
- Check of the Application Codes (ELV)
- Check of Conformity

☐ FAQ and further training opportunities

Teaching method

Lecture and demonstrations with numerous hands-on exercises

Circle of participants

You want to actively work with iPCA and create records for your company in iPCA in order to meet the requirements of your customers as a member of the automotive supply chain.

Prerequisites

Prior participation in our course "IMDS in Theory" No. 6119 or equivalent knowledge gained through your professional experience.

Duration

3 x 180 minutes

Max. number of participants: 14

Certificate

As a participant in our authorized iPCA training courses, you will receive a personal certificate with which you can prove your iPCA qualification.

Training documentation

You will receive your own copy of the presentation accompanying the lesson.

Public trainings

Current prices and dates can be found on our website: https://www.imds-professional.com

Exclusive trainings

You can also book this training exclusively. In this case, the training should be carried out on your iPCA system.

Benefits: You determine the location, date and number of participants and can set the content priorities. If you wish, we can take over the entire organisation.
