

6213 Material and Product Compliance – An Introduction

You will gain a better understanding of material and product compliance requirements in various industries, both in Europe and worldwide, and be able to classify and understand customer inquiries better.

Objective

You will be given vital background information and learn about the goals of material and product compliance requirements in Europe and worldwide. These include REACH, ROHS, and the POPs Regulation, as well as restrictions on basic substances in the USA, such as TSCA and those under Proposition 65 in California, and in other countries outside the EU. You will also learn about the objectives and reasons for the Digital Product Passport.

You will understand your responsibility for data management as one link in the supply chain and recognize when to start reporting and to evaluate it.

Topics covered

- European requirements for material and product compliance
 - REACH Regulation
 - Waste Framework Directive (WFD/SCIP)
 - RoHS Directive
 - End-of-life Vehicles Directive (ELV)
 - Persistent Organic Pollutants (POPs)
 - Biocidal Products Regulation
 - Digital Product Passport (DPP)
 - RISL (Railway Industry Substance List)
 - AD-DSL (Aerospace and Defence Declarable Substance List)

- Global requirements for material and product compliance
 - TSCA (USA)
 - RoHS (China, Korea, etc.)
 - California Proposition 65
 - CEPA (Canada)
 - IMO HKC (Hongkong Convention)

- Closing remarks - Your questions
