

This extension in IMDS allows companies to identify MDS updates with one click provided received MDS already exist as accepted in the inbox.

It lists updated supplier MDSs as well as the individual own or published MDSs that contain an older version of the updated MDS.

>> OBJECTIVE

You know the functions of the IMDS to automatically update material data sheets using the system. You can check your MDS for up-to-dateness and to send updated versions to your customers in IMDS. You are familiar with the change management specifications in IMDS, are able to implement them in your company and are aware of current update requirements.

Your advantage: By automating MDB updates, recurring updates are performed more quickly, more consistently, and with significantly fewer errors.

>> TOPICS COVERED

Basics of Change Management

- Product Life Cycle Reporting
- Reporting according to IMDS Rec. 001

Update Trigger

MDS Update Function

- Significance and Advantages
- Recording MDSs to be Updated
- Update Process
